FLOORING TO GO

FLOORING TO GO

Das neue DLW Linoleum Lieferkonzept

Diese Broschüre gibt Ihnen einen Überblick über die aktuellen DLW Linoleum, DLW Sports und DLW Luxury Linoleum Kollektionen. Mit dem neuen Konzept wollen wir Ihnen einen optimalen Lieferservice anbieten.

Flooring To Go – Das ist eine Auswahl an Farben die wir für Sie lagerhaltend zur Verfügung haben und kontinuierlich nachproduzieren. Wenn Sie sich für diese Farben entscheiden, versprechen wir Ihnen schnelle und zuverlässige Lieferung für Ihr Objekt.

Die Farben mit dieser Kennzeichnung sind lagerhaltend

Alle anderen nicht gekennzeichneten Farben, produzieren wir gerne projektbezogen auf Ihre Anfrage.

The new DLW Linoleum delivery concept

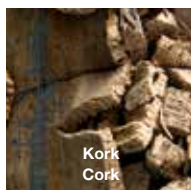

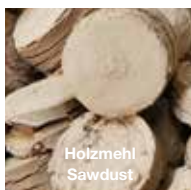

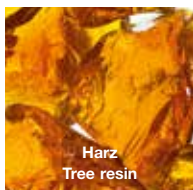

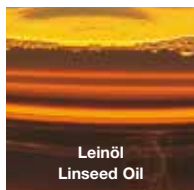

This brochure gives you an overview of the current DLW Linoleum, DLW Sports and DLW Luxury Linoleum collections. With the new concept we want to provide you an optimal delivery service.

Flooring To Go – This is a selection of colors which we have available on stock for you and we are continuously reproducing. If you choose these colors, we promise you fast and reliable delivery for your building project.

The Colors with this label are on stock

All other colors which are not marked are produced upon your request.

DLW Linoleum – Das Naturprodukt

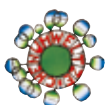

DLW Linoleum ist der einzige elastische Bodenbelag aus nachwachsenden Rohstoffen. Er wird zu 98 % aus organischen Materialien hergestellt – und ist deshalb natürlich und gesund. Linoleum enthält weder PVC noch Weichmacher. Es ist fußwarm und durch das Leinöl von Natur aus antibakteriell. Seine Herstellung auf Basis natürlicher Rohstoffe verleiht ihm zudem eine nahezu neutrale CO₂- Bilanz. Bei der Fertigung bedarf es einer bestimmten Reifezeit um die bewährte Qualität des Produktes gewährleisten zu können.

Linoleum ist zertifiziert durch eine Reihe von Ökolabels, die seine Umweltverträglichkeit dokumentieren: Blauer Engel, Swan Label, das Österreichische Umweltsiegel und sogar die Spielzeugnorm

DLW Linoleum – The natural product

Linoleum is the only resilient flooring made from renewable raw materials. It is made of 98 % organic materials – and is therefore natural and healthy. Linoleum contains neither PVC nor plasticizer. It is warm to the feet and naturally antibacterial due to the linseed oil. Its production based on natural raw materials also give it an almost neutral CO₂ balance. During the production of Linoleum it takes a certain maturing time to ensure the quality of the product.

Linoleum is certified by a number of ecological labels which document its environmental friendliness: Blue Angel, Swan Label, the Austrian environment seal and even the children's toy standard.
