Facts & figures

- More than 14,000 employees at over 40 manufacturing and distribution sites worldwide – an international outlook with a strong local presence.
- Our products are popular in more than 125 countries around the world.

Over 120 years in the business. More than 40 manufacturing and distribution sites around the world. Satisfied customers in more than 125 countries. But still both feet firmly on the ground.

What began in an Austrian sawmill back in 1897 has since become a global success story. As the world's leading manufacturer of laminate flooring, we have established our reputation in over 125 countries around the world. This is due in no small part to our pursuit of perfection. Because we always want to be better than our competitors. We know exactly what our customers want.

That's why we leave nothing to chance. We make everything ourselves. Which includes manufacturing the coreboards, making the adhesive and producing the impregnates – vertical integration that gives us total control over the entire manufacturing process. And over every single detail. You can see the result in our floors. You can even feel it. Because thanks to our innovation, we have succeeded

in getting closer and closer to nature. With all the advantages that a laminate floor offers, such as easy maintenance, all-purpose application and the ingenious click system for easy installation. It couldn't be simpler. And yet none of this would have been possible without our years of experience and extensive research. Because we know what our customers want.

146 designs. From classic to modern.
 So there will always be a floor that is to your taste.

Choose from an incredible variety of designs that are the perfect match for any interior. We currently have almost 150 in our product range. One is bound to be right for you. We are constantly coming up with new ideas that keep us one step ahead of the latest fashion. To do this, we have a team of dedicated designers who not only track current trends but also anticipate them. They know exactly what will get customers excited. With the whole world of design and comfort to their feet. Superior design for us means sleek appearance coupled with a sensual feel. Whether classical or modern, opulent or puristic, Krono

Original® offers top-quality products to turn even the simplest of rooms into a unique, cosy living space. But there is more to design than just appearance. Substance also counts. That's why we are constantly developing our products to create even more comfortable surroundings and provide greater comfort under foot. An antibacterial coating that inhibits bacteria growth. A robust surface that resists wear and tear. Better protection against micro-scratches which can be caused by mechanical stress. For lasting enjoyment of your floors. And for a good homely feeling.

The look and the feel of real wood

...plus all the practical surface properties that you expect from a laminate floor. Easy to maintain. Easy to install. Protection against micro-scratches. And an anti-bacterial coating. Modern methods make all of this possible while modern technology enhances the visuals. Krono Original® – the floors of the future.

You'll love our floors. Easy installation, an A.B.C anti bacterial coating, a Microscratch Protect surface and an Authentic Embossed structure are just a few of the benefits of Krono Original® floors.

K061 Rusty Barnwood

Krono Original® floors are tested, certified and versatile.

Guarantee All Krono Original® laminate floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive guarantee with every product. You can be rest assured that, whatever range you choose, it's going to be easy to maintain and will give you enjoyment for many years to come.

Stain and imprint resistant Whatever you might spill, be it red wine, oil or jam, don't panic; it can be easily removed. Krono Original® is also abrasion resilient, robust and proven to be one of the most resistant floorings available, even heavy furniture won't leave an imprint. Please use felt pads for your furniture and ensure that swivel chairs are fitted with soft castors.

Twin Clic The Krono Original® Twin Clic system has been specifically designed to make fitting your laminate flooring as easy and hassle free as possible. The Clic and groove profiles allow individual panels to be joined together quickly with minimal tools or complications.

1clic2go Even in hard to reach places like corners, doors and under radiators, the ingenious "1clic2go" system makes installing Krono Original® floors simpler and faster than ever. The tongue & groove joint along the length of the panel is placed in position from above and fixed flush with the adjoining panel. The panels are then securely interlocked as the patented "1clic2go" beading latches into position with an audible click. Quick. Easy. Secure.

drop loc The Krono Original® "Drop Loc" system is a classic locking system with clickable short and long edges. The tongue & groove joint along the length of the panel is placed in position from above. It is an easy installation with minimal tools.

Multi Patent Indemnity Enjoy 100% security with multiple patent protection for all our products! In addition to the Kronoflooring patents, this Multi Patent Indemnity certificate provides extensive protective rights for VÄLINGE INNOVATION AB international and a choice of UNILIN patents worldwide. This involves assured, unrestricted product use of the glue-free click system for the trade.

Guaranteed Anti-Static We've all experienced static at some stage and it's pretty unpleasant. No doubt a 'shock' has caused you some discomfort when touching a door handle or using an electrical appliance in your home, so you'll be pleased to hear that help is at hand. Krono Original® Anti-Static floors provide complete protection against unpleasant shocks. The Anti-Static is built-in and guaranteed for the life of the floor. In addition, these floors do not attract dust and dirt in the conventional way and are therefore incredibly easy to keep clean.

A.B.C. Anti Bacterial Coating

We know that keeping your floor as clean as possible will be important to you and that means minimising the risk from germs. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result, which is why Krono Original® has introduced A.B.C., Anti Bacterial Coating that does not allow for germs to grow on your flooring. Germs can be present on a floor from many sources such as shoes, spills or animals etc, but Krono Original® A.B.C. Anti Bacterial Coating, works alongside a hygienic cleaning regime, to create peace of mind and a healthy environment.

Handscraped A breathtakingly elegant and realistic oiled wood finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall. Meanwhile the deep matt pores are highlighted with glossy accents.

Microscratch Protect This especially durable surface will protect your floors even better against micro-scratches which can occur through heavy use. With Microscratch Protect, your flooring will have the best possible protection against everyday wear and tear.

Eco Friendly All Krono Original® floors are environmentally friendly as standard made of 95% wood sourced from sustainably managed forests. What's more, the entire production chain – from raw materials to the finished product – has been certified and is regularly inspected by independent experts, ensuring peace of mind for you – and protection of our environment.

authentic embossed

Elegant contrasting and a thrilling multi-gloss effect perfectly recreate topquality structures with the unique character of natural wood. The tactile synchronous pores follow the grain of the decor. Beauty you can see and feel.

K052 [Vintage Classic]

A synchronous, decorative grain and structure

K052 [Vintage Classic]

"I want to enjoy the natural beauty of real wood without the downsides associated with it. Authentic Embossed by Krono Original® is the perfect solution. Authenticity you can see and feel. Structure you can touch. Synchronous pores unite classy real-wood aesthetics with comfort and practicality for a top-quality laminate floor."

8633 [Super Natural Classic]

authentic embossed

The intelligent floor solution
 – durable, hard-wearing, antistatic.

Indulge your taste for first-class living with Titan Prestige. Combining exquisite looks with a unique surface quality and superior protection against static shocks, Titan Prestige offers you a pleasing palette of strong 14 mm panels in 157 mm width with an Authentic Embossed or even Handscraped Finish. It gives you the opportunity to express your distinctive sense of style, at home or in the office.

Krono Original® simply shrugs off the scuffs and spills of modern family life. The authentic look of real stone or wood with the wipe-clean convenience of a laminate. No wonder it's everyone's favourite.

K049 [Impressions]

Durable, hygienic,
stain-resistant

"A low-maintenance floor is important for us, because our home can be a bit chaotic. Who really likes housework? I like things that make life a little easier – not hours of cleaning. Thanks to my Krono Original® floor, I can relax, as even tough stains like red wine, coffee, fruit stains and nail polish can be removed with ease. Just one wipe and it's clean! What's more, my floor is abrasion-resistant and incredibly durable. My verdict: it's the perfect choice for everyday living!"

K058 Bayside Oak

Striking floorboard aesthetics.

The Variostep Classic collection not only satisfies your demand for unmatched quality and easy installation. Its V-grooves also create the cosy look of a genuine solid hardwood floor. The grooves give your floor a unique and charming solid plank appearance as well as creating a sense of space. So if you're looking to give your room a breathtaking new lease of life, you certainly won't be disappointed.

Resource-efficient production

Only wood from sustainably managed forests. Healthy living – certified. All of this amounts to an expression of a love that goes beyond numerical values: our love of nature.

K032 [Variostep Classic]

"I won't compromise my principles. When I buy something, I want to be sure it comes from sustainable sources. So I checked out Krono Original® floorings and found out they use timber from responsibly managed forests. I trust them because, being one of the world's leading manufacturers of laminate flooring, they have a sustainability policy which commits them to reducing their impact on the environment. Which means I can update my home with renewable materials."

K032 [Variostep Classic]

Wood is our world. And wood is natural. Consequently, we are at one with nature. In our production and in our philosophy. Because we want to give back to nature what it gives us in quality of life. That's why we are careful to only use wood from sustainably managed forests. PEFC certified. With completely traceable origin. In our manufacturing processes too, the environment is always foremost in our mind. Our objective is to keep waste from production as low as possible – and indeed throughout the entire product life cycle.

We achieve a high recycling rate within the manufacturing process or alternatively use waste material to generate carbon-neutral energy for our production facilities. Our water and energy consumption is constantly monitored. This enables us to quickly identify potential savings and of course implement them in an environmentally friendly way.

This affinity for nature carries over into our products. Our floors are not only environmentally friendly, but also contribute to a healthy living environment. We are committed to using low emission bonding agents that contribute to the overall healthy balance of our products. With certified E1 quality. Quite naturally!

K069 Sidewalk Pine

A classic look with a new design.

Castello is perfectly suited to both modern and traditional rooms, offering a number of different design options. The different decors ranging from trendy to classical are easy to clean and maintain, and are sure to bring you years of pleasure!

anti bacterial coating – A.B.C.

You naturally want to keep your floor as clean and germ-free as possible. That's why Krono Original® applies an anti-bacterial coating to all its flooring to stop germs from growing. Together with regular cleaning, you can enjoy everyday life without worrying about your loved ones' health or well-being.

K038 [Kronofix Family]

Anti bacterial coating – A.B.C.

5958 [Castello Classic]

"Cleanliness is important, especially if you've got little ones or pets running around. That's why I chose Krono Original® with an anti bacterial coating. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A.B.C. does not allow for germs to grow, so I can rest assured my family and I are protected from any nasty surprises."

4290 [Sublime Classic]

K038 [Kronofix Family]
